EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Abstract of the Invention:

In line 15 of the abstract, "(FIG.3) has been deleted.

In the Claims:

In claim 8, line 4, "the network" has been changed to "a network" since the phrase "a frequency hopping network" recited in the preamble of claim 8 has been deleted.

2. The following is an examiner's statement of reasons for allowance: the prior art fails to show or suggest a method for predicting interference experienced by a first cell from a second cell by calculating the probability of a first cell hopping to substantially the same frequency as the second cell and weighting an estimated interference level with the calculated probability in order to modify the weighted estimated interference level.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
